DAYS 2/3/4 ~ THURSDAY/FRIDAY/SATURDAY ~ JULY 12/13/14

SAN JOSE/MONTEVERDE CLOUD FOREST

Start your exploration of Costa Rica as you head to Monteverde. Once the sun is setting, embark upon an unforgettable night hike. You'll have a chance to see nocturnal species such as gray foxes, amphibians, tarantulas, and snakes, sometimes seen and other times just heard. If super lucky, you may even spot a puma.

Monteverde is one of the most beautiful cloud forests in the world, a rich and complex cloud forest reserve which protects six different ecological communities, making it a paradise for nature enthusiasts and a renowned field site for biological research. Note that a "cloud forest" differs from a "rain forest". In particular, a cloud forest will generally receive less rain on an annual basis than will a rain forest. However, a cloud forest generally has more humidity and (because of its higher altitudes) more cloudiness than a rain forest. The reserve encompasses about 10,000 acres, with many interesting trails to wander through the thick tropical vegetation. You'll recognize many familiar house plants growing freely in the wild, including schefflera, bromeliads, and ferns, as well as some more exotic species. Although it's difficult to spot them, more than 320 species of birds are resident, including the seasonal Resplendent Quetzal, considered by some to be the most beautiful bird in the Americas, as well as the Three-wattled Bellbird, Black Guan, Umbrellabird, Spangled-cheeked Tanager, Orange-bellied Trogon, Emerald Toucanet (you usually hear them more than see them), and numerous other specialties. Among the 100 species of mammals are the Baird's tapir, jaguar and ocelot (rarely seen), howler monkey, kinkajou, and prehensile-tailed porcupine.

For the next two full days in Monteverde, you will have the chance to give back to the local communities. Opportunities for volunteer work in the following areas are available and some will be arranged for you:

- Orchid Recuperation project
- Monitoring Amphibians
- Data Base for investigation
- Cultural activities
- Maintenance work
- Working in the local Schools
- Reforestation

Your lodging for the next three nights will be at the Hotel El Establo. Nestled in the misty cloud forest of Monteverde, El Establo offers superb services that will make your trip an unforgettable experience. Restaurants and café-bars offer authentic cuisine and delicious cocktails under the stars. What sets El Establo Hotel apart is the unique opportunity to learn first-hand about local culture and the preparation of regional cuisine. Experience how regional ingredients smell and taste, and perfectly

blend into a recipe you won't ever forget. El Establo Hotel offers the opportunity to spend some time to bond with families of Monteverde by sharing stories over breakfast or lunch, or share homemade tortillas and empanadas together at coffee time. All rooms are equipped with private bathrooms, orthopedic mattresses, telephones and spectacular vistas. Every modern amenity is offered here, including a great restaurant, living rooms, solar heated pool, Jacuzzi, lake and forest trails.

Driving time from San Jose to Monteverde: 3 & ½ hours on good tarmac roads, but twisty roads

DAYS 5/6/7 ~ SUNDAY/MONDAY/TUESDAY ~ JULY 15/16/17
MONTEVERDE ~ HANGING BRIDGES TOUR/GUANACASTE PUNTA

ISLITA ~ ARA PROJECT

After breakfast, enjoy a very unique experience, the Selvatura Treetop Walk on hanging bridges. You will be surprised to find yourself – like the birds – admiring Mother Nature from the top of the trees. This is because from the beginning of your walk you will be ascending – step-by-step – until you find yourself as high up as the vegetation that will surround you (from 150 to 510 feet). Here, a series of eight bridges await you in order to safely walk without any worries. The almost 2-mile walk is an unforgettable experience with the excitement of looking to one side and seeing the tops of the trees and at the same time feeling the sensation of walking among the clouds.

Afterwards, transfer from Monteverde to Punta Islita in Guanacaste, where you will learn more about the Ara Project and meet with Dr. Sam Williams. The Ara Project – named for the genus of macaws – is dedicated to saving the two-native species of Costa Rica: the well-known Scarlet Macaw and the endangered Great Green Macaw. The project helps protect these incredible birds from threats like the wild bird trade, hunting and habitat loss through captive breeding programs and reintroducing offspring into the wild.

In 2015, the Indianapolis Zoo joined in these efforts, giving the project the means to construct additional breeding aviaries, in addition to the fabrication and installation of nest boxes for birds that have been released.

Dr. Williams started keeping parakeets and parrots as a boy growing up in Yorkshire, England. At 16, Sam was already breeding Amazon parrots, his aviaries consuming nearly half his family’s garden. At that same young age, Sam’s love of parrots led him to the fortunate opportunity to spend two months working with the Mauritius Wildlife Foundation and the wild Echo Parakeets, where he learned a great deal from Carl Jones, winner of the 2016 Indianapolis Prize, and the other conservationists and was able to work with wild Echo parakeets.

Sam's career later led him to Brazil, where he spent six months observing Lear's Macaws. Following that, he received support from the World Parrot Trust to research the Yellow-shouldered Amazons on Bonaire. In 2005 Sam and his colleague Rowan Martin each conducted research projects on Bonaire, to benefit the conservation of these fantastic birds. On completing his doctorate studies, Sam launched Echo, an organization benefiting the Yellow-shouldered Amazon. Echo's efforts in conservation, outreach, habitat restoration and research have helped the birds' population rise from 365 birds to over 1000!

Sam is delighted to join the Ara Project and is looking forward to developing the organization's strategy. With his diverse experience from parrot keeping and wild parrot management, to fundraising and operations, Sam is confident he can move The Ara Project forward and help Costa Rica's incredible parrots.

Your home for the next 3 nights is the Punta Islita Resort. Located on Islita Beach in Guanacaste, your resort puts you in the perfect location to work with the Ara Project. Rooms are spacious and comfortable, enjoying a partial ocean view and a terrace with a hammock. Additional amenities include complimentary Wi-Fi internet access, air conditioning, and in room safes.

Driving time from Monteverde to Guanacaste: 4 hours on tarmac roads

DAY 8 ~ WEDNESDAY ~ JULY 18

GUANACASTE ~ TURTLES!

This morning, visit with Turtle Trax, a limited company contracted by CREMA (formerly PRETOMA) to manage all International and National volunteers who wish to work alongside CREMA on one of their four nesting beaches, protecting marine turtles of the Pacific Coast of Costa Rica.

Over the last 12 years, volunteers have protected thousands of sea turtle nests and released hundreds of thousands of hatchlings back into the Pacific Ocean. Volunteers not only work with sea turtles, but with the funds generated through these programs help provide an income for local community members and serve to sustain CREMA's various sea turtle conservation projects along the Pacific coast of Costa Rica. You will be involved with some type of project during your morning with Turtle Trax.

Another highlight will be your nighttime walk on the beach to look for green turtles coming ashore to lay their eggs. This is the time of year that green turtles nest in this part of Costa Rica, but there are never guarantees in nature. Before entering the park, your group will stop by the park station to register. This is a protected area, and it's important to abide by the park rules while you're here. A visit here helps finance the local efforts to protect the area from development that could damage this fragile ecosystem.

Schedules, accommodations and prices are accurate at the time of writing. They are subject to change.

If you're lucky, you will see a green turtle emerge from the waves and head for a spot on the beach near the shoreline. Then the female turtle will dig a shallow hole with her fins, and deposit 65 to 90 eggs. Afterwards the female will cover her eggs with sand to protect them against predation and return to the sea. Sixty days later tiny hatchlings will emerge, and follow in their mother's footsteps to the water, becoming the new hope for the Pacific green turtle to survive. Visitors are not allowed to take pictures or do anything else that might disturb the turtles. But even if you don't see turtles, rest assured that seeing the moonlit shore will be well worth your while.

Overnight at PUNTA ISLITA RESORT. (B)

THINGS YOU NEED TO KNOW ABOUT COSTA RICA

Participants

- Participants must be able to climb in and out of tour vehicles unassisted. You should also be able to tolerate nature walks at an easy pace on uneven terrain, sometimes uphill, for three or four hours at a time in heat and humidity.
- You should be in good physical health to enjoy this destination to its fullest.

General

- True adventure in travel can sometimes be accompanied by unexpected changes in conditions, itineraries and occasionally your accommodations. Participants should travel with a spirit of adventure and flexibility. Remember to pack your patience and sense of humor! Be willing to look past self-imposed ideals of Western amenities and do not compare these new experiences with your life back home.
- Travel often includes visiting destinations with modest infrastructures and a bending definition of comfort. That being said some locations are nestled in absolute luxury where pampering is the norm
- Participants should generally be in good health and prepared to travel in locations without medical facilities.

Air Schedules

Choosing the best possible air arrangements for our travelers is always a challenge. We work with many airlines that offer the best level of service, routings and value for our programs. While there may indeed be more direct routings available with another airline, the cost of these flights may not be within the budget that allows us to give you the best value possible. If you prefer to purchase your own international air, please feel free to choose the “land only” rate for this program. **This program begins in San Jose, Costa Rica and ends in Liberia, Costa Rica.**

Upon registration, you must provide your full legal name as it appears on your passport. In the event an airline ticket is issued with incorrect information you have provided, you will be responsible for charges associated with reissuing the ticket.

TRANSPORTATION

OPTIONAL AIR TRANSPORTATION: Roundtrip, economy-class flights via **DELTA AIR LINES** and/or other IATAN carriers are between INDIANAPOLIS, and the destination city noted in the itinerary. Rates are based on special promotional fares; cancellation fees apply once tickets are issued. Departures from other cities in the USA are possible at additional cost; inquire at the time of reservation. Please note that these promotional fares are subject to 10 passengers traveling together on the same airline routing and itinerary. If this minimum is not met, the special group rates are not applicable and it might become necessary to issue instant purchase tickets earlier than when final payment is due in order to take advantage of airfares that are similar to the group rates. Should this occur, you will be contacted with the details.

AIRLINE SEATING: For **DELTA AIR LINES**, we request seats together for the group. All planes are non-smoking. We can request a seating preference on your behalf, however requested seats cannot be guaranteed. Requests should be made in writing no later than 60 days prior to departure. Bulkhead and/or emergency row seats can only be requested at airport check-in on the day of departure. Boarding passes will only be issued at the airport on the day of departure. You may inquire about seat changes during check in, based on availability and is at the sole discretion of airport staff.

Remember to keep the boarding passes until you receive a statement with the mileage credit.

TRANSFERS: Roundtrip airport transfers are included in the tour for guests arriving on group flights. If travelers make their own air arrangements, they will be subject to extra transfer fees.

TRIP DETAILS

ACCOMMODATIONS: You will marvel at the wonderful accommodations provided throughout your tour. All rooms have private bathroom facilities and air conditioning and/or fans. All rates are based on double occupancy. Most rooms are twin-bedded, but king-size beds are occasionally available and should be requested in advance. Accommodations listed in this itinerary are correct at time of writing, but on rare occasions may be substituted for a different property of comparable quality.

MEALS: All meals as specified in the itinerary. Please notify us if you have special dietary needs or requests, and we will do our best to accommodate.

INOCULATIONS: When it comes to vaccination and disease prevention, we suggest that travelers first review information provided by the U.S. Centers for Disease Control and Prevention (www.cdc.gov/travel) and then review those details with their personal physicians.

WATER: It is always advisable to drink bottled and/or filtered water when traveling overseas. Safe drinking water will be provided to travelers free of charge in the vehicles and during meals.

BAGGAGE: On average, international flights from the USA allow one piece of checked luggage, each not exceeding 50 pounds; however, we always recommend that you check your airline's policy just before departure, as luggage limitations are always subject to change. Despite this weight allowance, we always suggest guests travel light. Also, soft-sided duffel bags are ideal for this tour, as they stow best in vehicles with limited space.
